

Program Information

The Anoka Technical College Health Technology certificate is a 26-credit program that provides students with skills to secure an entry-level position in the health care field (nursing assistant, phlebotomist, and home health aide) or allow students to engage in coursework that will transfer into the different health programs.

Program Learning Outcomes

By completing this program, students will achieve the following learning outcomes.

1. Interact in complex environment.
2. Apply critical thinking skills.
3. Communicate in diverse settings.
4. Recognize teamwork/collaboration as an integral part of the health care delivery.
5. Demonstrate professional behavior.
6. Provide safe, patient-centered care.

Course Prerequisites

Some courses may require an Accuplacer score or completing basic math, basic English, and/or reading courses with a “C” or better.

Background Study

Minnesota Law requires that any person who provides services that involve direct contact with patients and residents at a health care facility licensed by the Minnesota Department of Health have a background study conducted by the state. An individual who is disqualified from having direct patient contact as a result of the background study, and whose disqualification is not set aside by the Commissioner of Health, will not be permitted to participate in a clinical placement in a Minnesota licensed health care facility. Anoka Tech will withdraw any student from the program who is disqualified by the Minnesota Department of Health. The student is responsible for requesting the Commissioner to reconsider the disqualification.

Graduation Requirements

All Anoka Technical College students seeking an Associate in Applied Science (AAS), diploma, or certificate must meet the cumulative grade point average (GPA) of 2.0 or higher.

Transfer Opportunities

To see how credits from this program may transfer into other Anoka Technical College programs or into a program at another college, visit:

Industry Information

According to the Minnesota Department of Education and the Minnesota Department of Employment and Economic Development, people in entry-level health care careers are people who tend to:

- Consider relationships important. They like to work in a friendly, non-competitive environment. They like to do things for other people. They prefer jobs where they are not pressured to do things that go against their sense of right and wrong.
- Consider good working conditions important. They like jobs offering steady employment and good pay. They want employment that fits their individual work style. They may prefer doing a variety of tasks, working alone, or being busy all the time.
- Have social interests. They like work activities that assist others and promote learning and personal development. They like to communicate with others: to teach, give advice, help, or otherwise be of service to others.
- Have realistic interests. They like work activities that include practical, hands-on problems and solutions. They like to work with plants, animals, and physical materials such as wood, tools, and machinery. They often prefer to work outside.

Employers look for entry-level health care personnel who like to help people and do not mind hard work. Employees must be responsible, compassionate, emotionally stable and cheerful. They also need to be tactful, honest, and discreet about patients’ private lives.

Gainful Employment

Technical Education: 19 Credits

Must complete one of the following courses:

- HLTH 1101 TMA- Trained Medication Aide 3
- HLTH 1103 Nursing Assistant/Home Health Aide 5

Select from the following to equal nine (9) HLTH credits:

- HLTH 1000 Disease Conditions 2
- HLTH 1005 Anatomy & Physiology 4
- HLTH 1101 TMA- Trained Medication Aide 3
- HLTH 1040 Medical Terminology 2
- HLTH 1103 Nursing Assistant/Home Health Aide 5

Select ten (10) credits from the following:

- ADSC 1055 Electronic Health Records..... 2
- BIOL 1106 Principles of Biology 4
- BIOL 1130 Human Biology 4
- BIOL 2100 Anatomy & Physiology I 4
- BIOL 2200 Anatomy & Physiology II 4
- COMP 1002 Computer Technologies for Communication 2
- EMED 1076 BLS for the Healthcare Provider 1
- MATH 1010 Dosage Calculations for Health Care Professionals 1
- PSYC 1406 General Psychology 4
- PSYC 1506 Lifespan Development 4
