Quality Technician
Associate of Applied Science (AAS) Degree

Program Information
This program is designed to train student in the tools and processes used to ensure the quality of finished goods and products. Graduates of this degree will have the skills necessary to be employed as a quality assurance technician in a variety of manufacturing sectors. With completion of this degree students will also obtain 15 Minnesota Transferable Credits meeting three different goal areas.

Program Learning Outcomes
Upon completion of this degree, students will be able to competently use tools and processes utilized in industry for the inspection of finished goods. Students completing the AAS degree combined with experience in the field will also be able to test for the American Society of Quality (ASQ) Certification for a Quality Technician.

Students will be able to perform the following tasks in their new career field.
1. Demonstrate document control skills.
2. Competently utilize tools to inspect finished goods of any kind.
3. Ensure quality within the supply chain for consumer safety.
4. Analysis of collected data.
5. Create and maintain inspection documentation.
6. Interact professionally with coworkers.
7. Interpret engineering drawing utilizing Geometric Dimensioning and Tolerancing.
8. Understand basic manufacturing practices.
9. Knowledgeable in regulatory standards and requirements.
10. Able to work in a management team.
11. Creating a quality management system.
12. Calibration of measurement gauging.
13. Creation and requisitioning on measurement fixtures.
15. Create metrics of cost of quality.
16. Have an ethical foundation of the importance of quality management.
17. Able to identify continuous improvement opportunities.

Industry Information
This field is under-represented in higher education and no program has the required skills in statistical analysis. Quality Technicians are the individuals who assure that the quality of manufactured products meet the requirements of the customer and regulatory bodies. Quality technicians work in clean, environmentally controlled areas with regulated temperature and humidity to ensure part consistency. This is a mid-level position in the field with large opportunity for advancement and increased wage growth.

Wages/Outlook/Advancement
Wage information is available from the Minnesota Department of Employment and Economic Development (https://mn.gov/deed/job-seekers/job-outlook/).
