

Part-time Course Sequence Options

CNC Service Technician diploma

Students can choose to complete the CNC Service Technician diploma program part-time. Part-time students will take longer to complete their program than students who follow the full-time sequence listed on the official program guide. Because every course may not be offered each semester, it is important for part-time students to reach out to their faculty advisor for help in planning their long-term part-time course sequence.

Below, new students can find first semester part-time course options. After the first semester, work with your faculty advisor to plan future semesters.

First Semester Part-Time Course Options

Course Subject	Course Name	Credits	Lecture hours/week	Lab hours/week
ETEC 1250	Digital 1	3 credits	2 hours	2 hours
MAIN 1100	Pneumatics & Hydraulics	4 credits	1 hour	6 hours

Note: Course options may differ depending on whether you plan to start in the fall or spring semester. ETEC and MAIN courses for new students are not always available in the spring term.

Students starting in the spring semester have the option of starting with ENGL 2105 Business & Technical Writing (or any necessary developmental Reading/English courses) if no ETEC or MAIN courses are being offered.

Developmental Courses

Students must take ENGL 2105 Business & Technical Writing, which requires a Reading Comprehension ACCUPLACER score of 250 (view the detailed course information [HERE](#) for other ways to meet the prerequisite). Students who do not meet any of the prerequisites must take the appropriate developmental Reading and English courses as determined by the [placement chart](#).

Questions? Need Help?

For information on how to apply, to schedule a tour, or for service during summer hours, contact Enrollment Services at 763-576-7710 or EnrollmentServices@anokatech.edu

For detailed questions about your program or to plan your long-term part-time sequence, reach out to your faculty advisor:
