

Bio

My name is Melissa Zaitz. I am from a small town on the Iron Range. I have 3 boys that are my motivation in life. I moved to the Twin Cities in 2012. I am new to the Anoka area.

In August of 2016 I took an office administration program through the Professional Workforce Center which turned into an internship here at Anoka Technical College. I worked as a customer service specialist at the front desk near the college entrance. I answered the phones, sent out mailings, updated the phone directory and was continuously learning about all the programs ATC offers. During my time here I joined the 50 year committee and have been learning a lot of history about ATC. We are approaching 50 years of technical education. When my internship ended I decided to further my education by enrolling in the Administrative Specialist Program. I applied for work study and now work in the Records Office. I am currently filling the role of Secretary to the Student Senate until elections. I am a member of the OC3 committee and still on the 50 year committee.

I am running for the position of Student Senate Secretary. I enjoy helping others. I am learning how this college and other colleges in general operate. I am leaning and experiencing what struggles we as students face. I am still learning, growing and feel strongly about being a voice for the students. I would be grateful for the opportunity to continue on officially as Student Senate Secretary.
