

Program Information

The Anoka Technical College Logistics certificate is a 16-credit program designed for individuals wishing to enter the job market with the skills to perform a variety of job functions in the logistics and supply chain field. The program introduces logistics principles to students seeking first-time employment in supply chain management or for more experienced individuals desiring to expand their knowledge.

Logistics specialists evaluate and organize a firms' supply chain-the system that moves a product from supplier to consumer. Students learn to manage the entire life cycle of a product, which includes how a product is acquired, distributed, allocated, and delivered.

Graduates will:

- Have knowledge and understanding of analytical tools used in logistics
- Have knowledge and understanding to apply current local, state, federal, and international laws to large scale transport and storage of materials
- Be prepared to identify and work with ethical/legal issues related to purchasing and transportation of goods and material
- Have knowledge and skills to analyze potential opportunities in the management of supply chain
- Demonstrate an awareness of the importance of customer satisfaction.

Prerequisites

None.

Graduation Requirements

All Anoka Technical College students seeking an Associate in Applied Science (AAS) degree, diploma, or certification must meet the grade-point average (GPA) of 2.0 or higher. Please contact your advisor for any further program graduation requirements.

Transfer Opportunities

To see how credits from this program may transfer into other Anoka Technical College programs or into a program at another college, visit:

Industry Information

The logistics marketplace is one of major opportunity. The globalization that is a by-product of extensive use of the internet has increased the need for a flexible logistics infrastructure to support a global supply network, supporting the movement of goods from a growing number of source locations to meet market demand. Professional standards, proper methodology such as sound logistics strategies and principles, will be emphasized through courses.

Wages/Outlook/Advancement

Wage information is available from the [Minnesota Department of Employment and Economic Development](http://mn.gov/deed/job-seekers/job-outlook/index.jsp) (http://mn.gov/deed/job-seekers/job-outlook/index.jsp).
