

Part-time Course Sequence Options

Mechanical Drafting & Design Programs

Students can choose to complete the Mechanical Drafting & Design programs part-time. Part-time students will take longer to complete their program than students who follow the full-time sequence listed on the official program guides (see: Mechanical CAD Operator certificate, Mechanical CAD Drafter diploma, Mechanical Drafting & Design AAS degree). Because every course may not be offered each semester, it is important for part-time students to reach out to their faculty advisor for help in planning their long-term, part-time course sequence.

Below, new students can find the first semester part-time course options. After the first semester, work with your faculty advisor to plan future semesters.

First Semester Part-Time Course Options

Program	Fall Start Courses	Spring Start Courses
Mechanical Drafting & Design AAS Mechanical CAD Drafter Diploma	MECH 1216, MATH 1070 & 1080*, MECH 1200, MECH 2064	MECH 1229, MACH 1090, MECH 2074, ENGL 1107 OR ENGL 2105, MECH 2055
Mechanical CAD Operator certificate	MECH 1216, MECH 2064, MECH 1200	MECH 1229, MACH 1090, MECH 2074

***MATH 1070 & MATH 1080 must be taken together in the same semester**

Notes: Course options differ depending on whether you plan to start in the fall or spring semester. The courses are listed in order of importance; for example, diploma and/or AAS degree students wishing to start in the fall semester with just 1 course would take MECH 1216, if they wish to take 2 courses they would take MECH 1216 with MATH 1070/1080, etc.

Developmental Courses

MATH 1070 & 1080 Technical Mathematics I & II require an Arithmetic ACCUPLACER score of 265 (view the detailed course information [HERE](#) for other ways to meet the prerequisite). Students who do not meet any of the prerequisites must first take the developmental course MATH 0801 Basic Math.

ENGL 1107 English Composition and ENGL 2105 Business & Technical Writing require a Reading Comprehension ACCUPLACER score of 250 (view the detailed course information [HERE](#) for other ways to meet the prerequisite). Students who do not meet any of the prerequisites must first take the appropriate developmental Reading and English courses as determined by the [placement chart](#).
